

REMARKS

Status of the Claims

Claims 1 and 3 have been allowed, and claim 2 and 4 have been canceled. Applicants have reviewed the allowed claims and respectfully request that a further minor amendment to Claim 1 be made as noted above solely to correct a grammatical error. No new matter has been added by the amendment.

§ 1.312 Amendment

Applicants have amended Claim 1 to recite “comprise” rather than “comprising.” The term “comprise” is included in language that was proposed by the Examiner in an Examiner’s amendment. However, the term “comprising” was inadvertently added by the Examiner, rather than the correct term “comprise,” which is why the amendment was not able to be presented earlier. Therefore, Applicants respectfully request that the amendment be entered following the Notice of Allowance.

No Disclaimers or Disavowals

Although the present communication may include alterations to the application or claims, or characterizations of claim scope or referenced art, Applicants are not conceding in this amendment that previously pending claims would not have covered, either literally or under the doctrine of equivalents, a device in which the two chambers are not contained in a unitary cartridge. Rather, any alterations or characterizations are being made to improve the clarity of the literal scope of the claims. Applicants reserve the right to pursue at a later date any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure, including subject matter found to be specifically disclaimed herein or by any prior prosecution. Accordingly, reviewers of this or any parent, child or related prosecution history shall not reasonably infer that Applicants have made any disclaimers or disavowals of any subject matter supported by the present application, whether or not the present amendment is entered as requested.
